

AFRICAN INITIATIVES FOR RELIEF AND DEVELOPMENT

Chad Program

Empowering Communities, Growing Together

**Established in 2006,
our mission is to enable the compassionate movement of those
displaced by natural or man-made disasters to safety, and providing
them and their host communities with opportunities to build their
lives and thrive for the long term.**

**As long as there are displaced people,
AIRD will lend a helping hand.**

Empowerment comes not only from providing critical relief items, but also through sustainable opportunities that lead to more resilient communities. This encourages the growth of enterprising spirits, and a sense that a bright future is still possible. AIRD cares because collective community growth is only possible if everyone is given an equal opportunity to participate.

Impact across our programs in 2019

Workshop Management

- 66 work shops repairing assets
- 17,953 job cards completed
- 3 days average for asset repair

Construction, Infrastructure and Rehabilitation

- 2,635 transitional shelters built
- 356 kilometres of road rehabilitated
- 290 latrines with sanitary facilities built

Fleet Management

- 997 light vehicles repaired
- 706 motorbikes fixed and in service
- 640 generators repaired and providing power

Our Impact in 2019

Our growth and progression is not only in the countries where we serve, but also in the services we are able to provide to those that need them the most.

- 69 warehouses in place
- 1,407,284 tons of Non-food Items (NFIs) stored
- 185,144(m3) storage capacity in warehouses and rub halls

Warehouse Management

- 65 fuel stations managed
- 11,623,823 litres of diesel issued
- 177,482 litres of petrol issued

Fuel Management

- 1,407,284 tons of Non-Food Items transported
- 200,323 displaced people transported with compassion

Refugee and NFI transportation

Our Operations

AIRD Chad is there to support and compassionately transport Persons of Concern to safety, while providing goods and services to build hope and resilience for those forced to flee their homes.

In 2019 alone, AIRD Chad transported and resettled **11,553** refugees. Managing a fleet of **41** trucks, **337** light vehicles and **8** trucks facilitated the movement of not only Persons of Concern, but also AIRD staff and other implementing partners. Fuel Management is a key function that keeps these vehicles and assets going. **2,968,302** litres of diesel at **13** fuel stations were issued and consumed within the year.

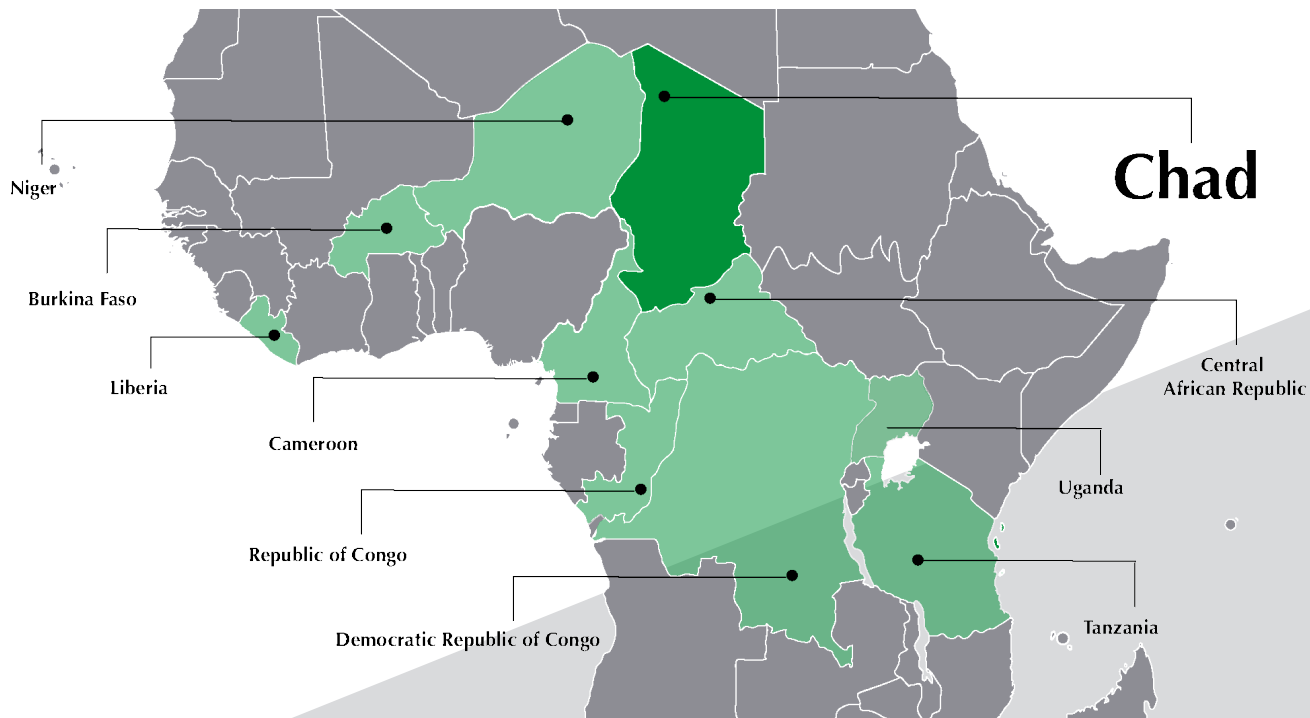

Maintaining **262** generators in primarily remote areas helped to keep essential services running in various camps. Transporting basic Non Food Items (NFIs) enables displaced people to restart their lives. AIRD transported **465,491** tons of NFIs in 2019. Storage of these items is possible at the **12** warehouses and **31** rub halls with a capacity of **15,300** m3 in different locations across the country.

Workshop Management is an area in which the AIRD Chad team particularly excels at. With **14** workshops and **5,156** job cards completed in 2019, the team was able to support the continued running of vehicles and assets in even the most remote areas served by various implementing partners.

In line with the overall goal of the organisation to do more for Persons of Concern, AIRD Chad intends to explore business development ventures in the area of Workshop Management in order to grow our funding sources.

Where we work

As at 31 December 2019, UNHCR reported a total of **739,400** Persons of Concern hosted in Chad. This included **442,700 refugees** primarily from Sudan (75%), Central African Republic (21%) and Nigeria (3%). These numbers represent individuals forcefully displaced and looking for safety and hope for a future.

**We want
to do even more...**

By delivering **excellent humanitarian logistics, construction and infrastructure** support to donors, agencies and governments.

As conditions in camps and settlements stabilise, including to the point of return for some refugees, AIRD will become increasingly connected to the host communities, IDPs & refugees, through the provision of **sustainable livelihoods, WASH and environmental assistance** to build their resilience, and to help those not in their usual place of abode to return home well and equipped to enhance their own communities.

AIRD also will proactively seek to **grow operational programmes** by considering supporting work in countries neighbouring existing field activity sites as well as those further afield.

Business development will be considered to evaluate the merits of establishing AIRD's logistics, vehicle maintenance etc as a business.
